As Chaisemas is simpathere and people want to know where to purchase their holiday pres-ents, and naturally look to the newspaper for such information, all who have holiday "goods and wares" to dispose of should defer no longer to advertise, and they will find no surer means of conveying information than that afforded by the Gazette, the circulation of which along the lines of the different railways leading to this city makes it a part cularly desirable medium.

PROM WASHINGTON.

Special Correspondence of the Alexa. Gazette WASHINGTON, D. C., Des. 18, 1879. Mr. Voorbees' resolution for investigating the negro exodus came up in the Senate to day. Mr. Windom made a cavaling speech in favor of his amendment, and was answered by Mr. Hill, of Georgia, who completely disemboweled not only the amendment, but the resolution also. He said the exodus would correct itself in its owa good time; that the negroes were no longer the wards of the nation ; they could take care of themselves, and had a right to go when and where they pleased; that he confused that he and many of the best men of the coun try had been disappointed in the negro, who made a better and more thilly citizen than those who thought they knew him best imagin-ed was possible; and that his presperity in the South was in exact ratio with the length of time the costrol of the southern States had been transferred from the carpet bag govern-ment to home rule. Mr. Hill stated nekoowledged facts to illustrate the truth of his remarks and satisfied all impartial bearers that he was right. Mr. Conkling attempted to be saroastic by remarking that he was glad to know that negroes were so industrious as to accumulate the property Mr. Hill stated they owned, as he had always heard from the South that they were so lezy they would not work. When the vote was taken Mr. Windom's amendment

was defeated by eighteen majority.

The House to day passed a resolution for examining the Assioniusal Department with references to the discovery of some or all of the ercokedness reported to have been in progress

there for several years' past.

The House, in committee of the whole, was engaged for sometime this afternoon in considering the report of the Committee on Indian Affairs, with reference to the future dispesition of the Use Indians.

Mr. Bayard said to day to a friend that the Democrats were in danger of losing a rare opportuaity for regaining the exclidence of the people of the North by their delay in adopting his resolution regarding the carrency.

Contrary to general expectation Gen. Grapt will come to Washington early in January, and spend several days there. He has declined an avitation to be the guiss of Mr. Hayes at the White House, and will secept the hospitality of General Box'o, an old friend of his and once minister to China, who has a handsome

residence on Lalayette Square.

Among the strangers on the flow of the Senate to day was General McClelian, now Governer of New Jersey. He was one of a group of whom the others were Senator Pendleton, who was on the presidential ticket with him, General Jos Johnston, and General Hampton.

The Senate to day passed a resolution order ing its Sergeant at-Arms to bring some of the witnesses who failed to appear before the committee investigating the Ingalis contested elce tion case before the bar of the Seaste to acswer for contempt.

The steam yacht Culibraire, which Captain Howgate, U. S. navy, has presented to the Government to be used in a propes id polar expedition, which was aground off Washington yesterday, got off at high water last night, and is now lying at Seventh street wharf. The Naval Committee of the House has agreed favorably upon a resolution to fit the yacht out

and start her on her proposed trip. The Militia Committee of the House this morning agreed to report favorably upon a reso wien to turnish the Cherokee Artillery of Rome, Ga., with a battery of four guns.

Mrs. Joanna A. Cantrell has been appointed postmaster at Cedar Point Landing, Goochland Co., Va., vice W. Il. Jennings appointed un-

der a misappresension. The Judiciary Committee of the House had up the bill proposing an amendment to the Connot report until after the recess. They agreed to report favorably upon a bill to reduce the postage on the correspondence of the blind,

who are compeled to use heavy paper. The democrats of Virginia seem to be trying to drive independent voters out of their party, but the executive committee of the national republican party adopt the opposite policy, and keep all the independents they can within the party fold. Mr. Gorham, who supported the democratic ticket at the recent election in California, was one of the most prominent men in the meeting of that committee here yesterday.

The House this moroing passed a resolution for allowing the Committee on the Mississipei Lavees to go on a junkering expedition down

the Mississippi river. In the House to day a resolution was adopted ssking the Sicretary of the Treasury for in-formation once tring lie as al dealers in tobacco and the amount of reveous derived therefrom. A bill was also introduced allowing producers of tebeces to sell their crop without taking out liceuse. An adverse report was presented on the inter-State migration bill. Mr. Goode, from the Committee on Education and Labor, reported, with a recommendation that it pass his bill to apply the proceeds of the sale of public lands to the education of the people ic prop raien to their illitersey. They also dis sussed the eight hour law, but extre to no con-

clusion thereon.
In the Senate to-day, Mr Hear, on the part of the Historical bounty of Massachusetts, prosented a menorial, signed by C. F. Adams and others, for an appropriation for a monument at Yorktown, Va., in accordance with a resolution adopted by Congress before the commencement

of the present century.

In the Senate to day, Mr. Johnston, from the Committee on Agriculture, reported favorably upon Mr. Jones' bill directing the Committees on Agriculture of the two bouses of Congress to consider what can be done to improve the agricultural interests of the country.

Judge Jones, of Pesersburg, is in the city to-

day trying to have the acoust appropriation for the improvement of Appointing river increased. Gen. Grant has invited Gen. Phil. Sheridan one orange as invited then ran Speridan to accompany him on his visit to Mexico and Cubs, and it is thought the invitation will be accepted. One Sheridan is in poor health.

Strange as it may seem, the project of electing presidential sleaners by the votes of the respective congressional districts in New York is a matter of strange and strange. matter of serious consideration among the mem-bers of Congress of that State, and that it is by

no means uncertain that there is plan will be adopted. If it is, the democrats may as well hang their bergs on the willow tree. There is a bill now before the Committee on Claims of the Senste for refunding to the banks of Richmond the \$110,030 in gold belonging to them that was sent out of that city previous to its surrender and captured by the federal troops

and turned into the treatury.

It is reported here by gentlemen just from Richmond that smong the fature piace of the readjusters is the election of Mr Paul as studge Harris' successor in Congress and Mr. Riddleberger as A torney General of the State. It is suproced that Col. Johnson will be elected Judge of Rockingham county, and Mr. Colvort of Shenandoah

It is said here that when General Mahone comes to the Senate he will not only be a demo-crat, but one of that grade of democrats so rank that they were formerly called locofocos.
